

A C C C A C T G G T G T

The image displays a sequence of nucleotide bases (A, C, G, T) arranged in two rows. The top row contains the bases A, C, C, C, A, C, T, G, G, T, G, T. The bottom row contains the bases G, C, T, A, G, T, T, A. The bases are color-coded: A is light green, C is teal, G is dark blue, and T is medium blue. The top row is larger and more prominent than the bottom row.
