

A T T T T C A T G T A C T A G

The image displays a sequence of nucleotide bases: A, T, T, T, T, C, A, T, G, T, A, C, T, A, G. The letters are rendered in a stylized, blocky font. The colors used are light green, dark blue, teal, and dark blue. The letters are arranged in a single line, with some letters having vertical stems and horizontal bars extending from them, suggesting a 3D or structural representation of the DNA sequence. The sequence is: A (light green), T (dark blue), T (dark blue), T (dark blue), T (dark blue), C (teal), A (light green), T (dark blue), G (dark blue), T (dark blue), A (light green), C (teal), T (dark blue), A (light green), G (dark blue).
