

T T T T T G T T A T C A A G T

The image displays a sequence of nucleotide bases: T, T, T, T, T, G, T, T, A, T, C, A, A, G, T. Each base is represented by a vertical bar. The top horizontal bar of each letter is a solid blue rectangle. The vertical stem of each letter is a blue line. The bottom horizontal bar of each letter is a colored oval shape. The colors of the bottom bars are: blue for T, green for G, light green for A, and teal for C. The letters are arranged in a single row, with some letters being taller than others.
